TWO COLLEC- TIONS ONE IDEA

Form begins with the surface.

The worktop gives an interior its character and defines its style. That is why we created the **ULTRAFIT** and **ULTRAPLUS** worktop collections – two straight-edge solutions designed with contemporary spaces in mind.

They differ in proportions and application possibilities, yet share the same philosophy: clean form, refined finishes and attention to every detail. Because true design does not need excess – it creates a harmonious, cohesive whole.

WHY WOODECO STRAIGHT-EDGE WORKTOPS?

PREMIUM EFFECT

A straight edge creates a seamless surface with a modern, elegant character.

MONOLITHIC APPEARANCE

A perfectly matched edge makes the worktop look as if it were made from a single piece of material.

SEALED EDGE

PUR bonding technology increases resistance to moisture and steam, extending the worktop's lifespan.

EASY PROCESSING

Worktops can be easily cut, routed and installed using standard tools.

Straight edge.
Cohesive form.

Modern aesthetics, refined details and the freedom to create beautiful interiors.

TWO COLLECTIONS. TWO APPROACHES TO DESIGN.

Two solutions designed for different interior concepts.

ULTRAFIT Slim minimalism

13 mm thick
Slim, minimalist form

Double-sided décor
Greater versatility: worktops, fronts and built-in furniture

Structural board core
Stability and durability for everyday use

ULTRAPLUS Classic proportions and versatility

28 and 38 mm thick
Proportions tailored to the character of the décor

650 and 950 mm wide
Dimensions suited to wall units and kitchen islands

Versatility
Widths suited to popular kitchen furniture systems

Wide range of applications

Kitchens

Bathrooms

Offices and workspaces

Public buildings

Retail and commercial spaces

NEW TEXTURE
FOR STONE DECORS

ROCK TOUCH (RK)

NATURAL DIMENSION OF THE SURFACE

A subtle, irregular texture inspired by the structure of stone gives the surface depth, a natural look and distinctive character.

Authentic look

Natural stone texture.

Durability and comfort

A matt surface for everyday use.

Design that captivates

A minimalist character and modern elegance.

Stone texture.
Natural character.
WOODECO quality.

ULTRAFIT

Slim minimalism

- 13 mm thick
- HPL on both sides
- P5 structural board
- Minimalist form

Applications

Worktops, fronts, island and peninsula cladding, built-in furniture.

- 1. HPL laminate
- 2. P5 structural board core
- 3. 0.8 mm ABS edge (PUR adhesive)
- 4. HPL laminate

ULTRA PLUS WORKTOPS

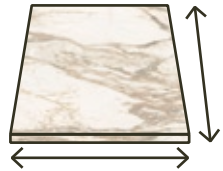

PK9082 Amber
PS3143 Ambiente Noce

PK9082 Amber

One décor. Many expressions.

The large-format Amber décor pattern reflects the natural variation of marble found in nature. The freely flowing veining gives each surface an individual and unique character.

XL PATTERN

The large-format pattern allows for a free, naturally varied arrangement of veining across the entire surface.

WITHOUT REGULAR REPETITIONS

Each worktop reveals a different composition of veining and tonal transitions.

DESIGNED FOR LARGE SURFACES

The distinctive pattern is best showcased on islands and expansive built-in furniture.

Natural variation.
A unique effect
in every project.

NEW STRUCTURES
FOR UNI DECORS

FROST STEEL (FR)

COOL ELEGANCE ENCLOSED IN A MATT TEXTURE.

A subtly varied, matt texture inspired by brushed metal gives the surface depth and a distinctive, industrial character. The subtle play of light highlights the texture while maintaining an elegant and modern look.

Texture available in the **PB0090** Snow White décor.

Subtle rawness

A delicate texture inspired by brushed metal.

Play of light

The matt surface subtly enhances the purity of white.

Modern character

Industrial aesthetics suited to contemporary interiors.

MOON (MN)

NATURAL DEPTH INSPIRED
BY THE LANDSCAPE OF LUNAR ROCKS.

A distinctive, irregular texture inspired by the surface of rock gives adds depth to the black surface and the character of natural slate. Light highlights the three-dimensional texture, creating a dynamic effect.

Texture available in the **PU1000** Lava Black décor.

Natural inspiration

A texture inspired by the landscape of lunar rocks.

Distinctive depth

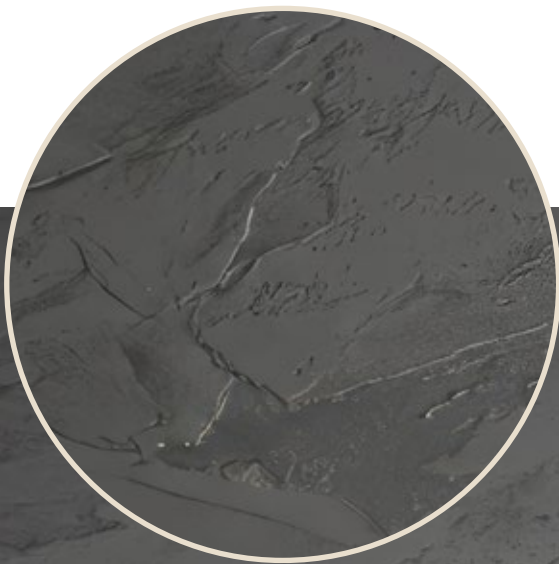

A three-dimensional texture giving the black surface a distinctive character

Refined irregularity

Subtle surface variation inspired by natural slate.

Two textures.

Two distinct characters.
WOODECO quality.

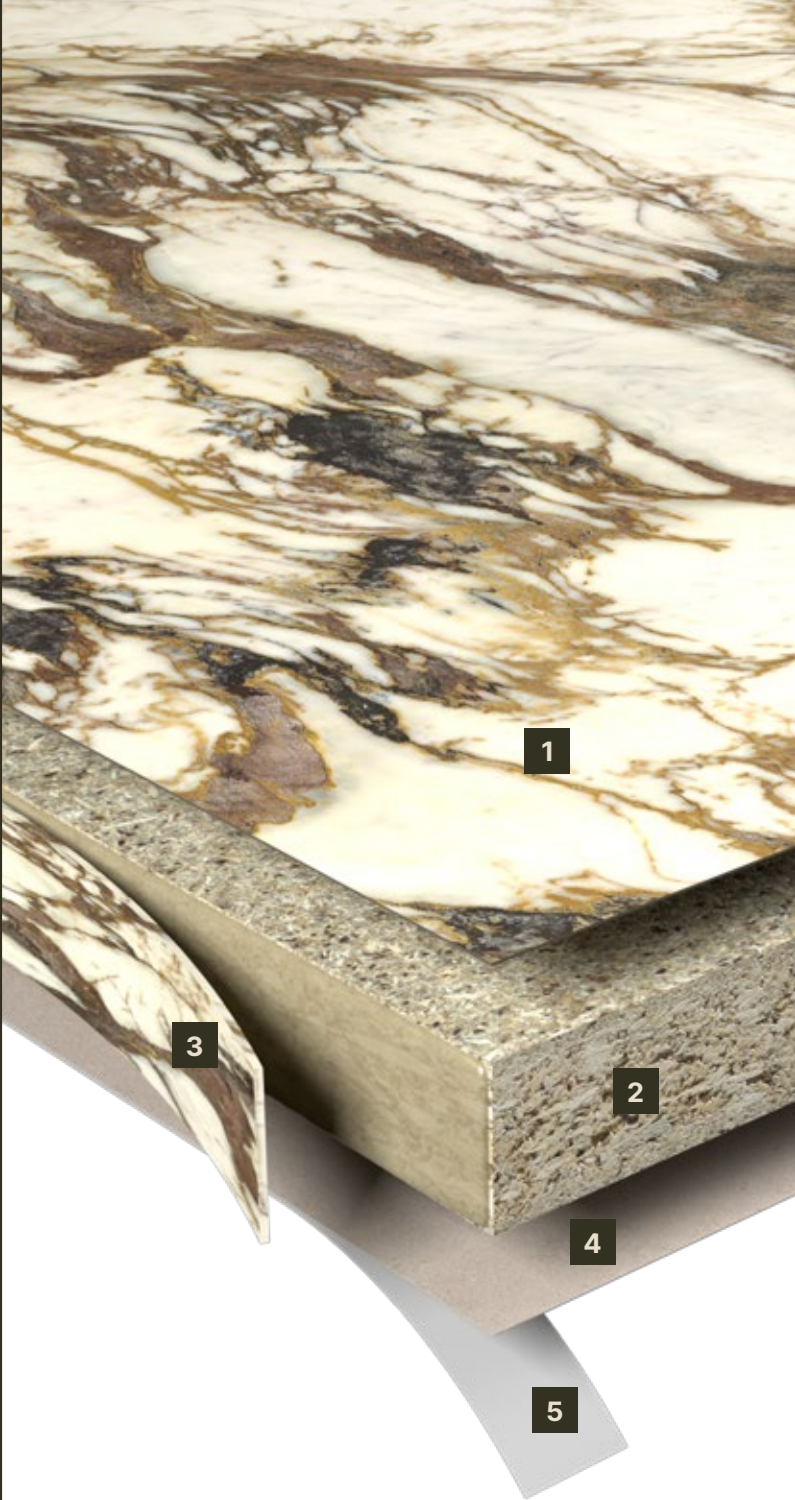

ULTRAPLUS

Natural proportions and versatility

- **28 and 38 mm**
Two thicknesses tailored to the character of the decor.
- **650 and 950 mm widths**
Formats suited to wall units, islands and peninsulas.
- **A rich selection of decors**
A collection of stone, marble, travertine and wood decors.

Versatile applications

Kitchen worktops, islands, peninsulas and commercial interiors.

- 1. HPL laminate
- 2. Chipboard core
- 3. 1.2 mm ABS edge (PUR adhesive)
- 4. Balancing paper
- 5. PUR tape
